

phys::xml::Writer

```
classDiagram
    class phys_xml_WriterFile["phys::xml::WriterFile"]
    class phys_xml_WriterStream["phys::xml::WriterStream"]
    class phys_xml_Writer["phys::xml::Writer"]
    phys_xml_WriterFile --|> phys_xml_Writer
    phys_xml_WriterStream --|> phys_xml_Writer
```

The diagram illustrates a class hierarchy. At the top is the base class 'phys::xml::Writer'. Below it are two subclasses: 'phys::xml::WriterFile' on the left and 'phys::xml::WriterStream' on the right. A horizontal line connects the two subclasses, with a vertical line extending upwards from its center to an arrowhead pointing at the base class, indicating inheritance.
