

Mezzanine::ManagerBase

Mezzanine::Singleton< ActorManager >

Mezzanine::ActorManager

```
classDiagram
    class ManagerBase["Mezzanine::ManagerBase"]
    class Singleton["Mezzanine::Singleton< ActorManager >"]
    class ActorManager["Mezzanine::ActorManager"]
    ManagerBase <|-- Singleton
    ManagerBase <-- ActorManager
```

The diagram illustrates the relationships between three classes in the Mezzanine library. At the top, two boxes represent 'Mezzanine::ManagerBase' and 'Mezzanine::Singleton< ActorManager >'. A horizontal line with upward-pointing arrows at both ends connects these two boxes, indicating a bidirectional relationship or inheritance. Below this line, centered, is a third box labeled 'Mezzanine::ActorManager'. A vertical line descends from the center of the horizontal line to the top of the 'Mezzanine::ActorManager' box, indicating that 'Mezzanine::ActorManager' inherits from both 'Mezzanine::ManagerBase' and 'Mezzanine::Singleton< ActorManager >'.
