

Mezzanine::ManagerBase

Mezzanine::Singleton< SceneManager >

Mezzanine::SceneManager

```
classDiagram
    class ManagerBase["Mezzanine::ManagerBase"]
    class Singleton["Mezzanine::Singleton< SceneManager >"]
    class SceneManager["Mezzanine::SceneManager"]
    ManagerBase <|-- Singleton
    ManagerBase <|-- SceneManager
```

The diagram illustrates the relationship between three classes in the Mezzanine namespace. At the top, 'Mezzanine::ManagerBase' and 'Mezzanine::Singleton< SceneManager >' are shown as separate entities. Below them, 'Mezzanine::SceneManager' is shown. A horizontal line with upward-pointing arrows at both ends connects the two top boxes, indicating a relationship. A vertical line descends from the center of this horizontal line to the 'Mezzanine::SceneManager' box, indicating that 'SceneManager' inherits from or is associated with the relationship between 'ManagerBase' and 'Singleton'.
