

Mezzanine::ManagerBase

Mezzanine::Singleton< CameraManager >

Mezzanine::CameraManager

```
classDiagram
    class ManagerBase["Mezzanine::ManagerBase"]
    class Singleton["Mezzanine::Singleton< CameraManager >"]
    class CameraManager["Mezzanine::CameraManager"]
    ManagerBase <|-- Singleton
    ManagerBase --> CameraManager
```

The diagram illustrates the relationship between three classes in the Mezzanine namespace. At the top, two boxes represent 'Mezzanine::ManagerBase' and 'Mezzanine::Singleton< CameraManager >'. A horizontal line with upward-pointing arrowheads at both ends connects these two boxes, indicating a bidirectional relationship or inheritance. Below this line, centered, is a third box labeled 'Mezzanine::CameraManager'. A vertical line descends from the center of the horizontal line to the top of the 'Mezzanine::CameraManager' box, representing an association or inheritance link.
