

Mezzanine::AttachableBase

```
classDiagram
    class MezzanineAttachableBase["Mezzanine::AttachableBase"]
    class MezzanineAttachableChild["Mezzanine::AttachableChild"]
    class MezzanineCamera["Mezzanine::Camera"]
    MezzanineAttachableChild --|> MezzanineAttachableBase
    MezzanineCamera --|> MezzanineAttachableChild
```

The diagram illustrates a class hierarchy. At the top is a dashed box containing the text 'Mezzanine::AttachableBase'. Below it is a solid box containing 'Mezzanine::AttachableChild'. At the bottom is another solid box containing 'Mezzanine::Camera'. A vertical arrow points from the 'Mezzanine::AttachableChild' box up to the 'Mezzanine::AttachableBase' box, indicating inheritance. Another vertical arrow points from the 'Mezzanine::Camera' box up to the 'Mezzanine::AttachableChild' box, also indicating inheritance.
